

KCPA 110: 2D DESIGN  
INSTRUCTOR: SARAH KNILL  
EMAIL: KNILLS@FERRIS.EDU

**ASSIGNMENT IX: SQUARE I**

**DUE 11/19**

Using the topics we have discussed in class, create a sophisticated and well-composed design on a 10" x 10" format.

Your design must highlight 3 of the following terms...

**You must select one term from each column:**

Texture	Proportion	Similarity
Harmony	Dominance	Proximity
Variety	Movement	Continuity
Repetition	Economy	Closure
	Balance	

More than 3 terms may be present in your design, but the 3 you are choosing to highlight must be critical components to your composition (meaning your design would be incomplete without them). Consider the projects we have done throughout the semester as a reference.

- Sketch a *minimum* of 5 design ideas.
- Your design must be done by hand.
- Your design may use any combination of black, white and greys!!!
- You may use any *two-dimensional* (no 3-D) materials to create your design: sharpies, pencils, grey prismacolor markers or pencils, contact paper, vellum, collage elements, etc.

Mount your 10" x 10" design on a 12" x 12" black presentation board.  
Label the board with your name only.
